

## **Custom enamel signs**

SPECIFICATION FOR GRAPHICS.

- 1.** Open the “Custom Enamelware Catalogue - Signs” in Adobe Illustrator or other software which supports vector graphics files.
- 2.** Choose colors from the 15th page to use for the background of the sign as well as for your custom graphics.
- 3.** The minimum detail size on the graphics is 0,5mm.
- 4.** Fonts must be converted to curves.
- 5.** Avoid gradient and transparency.
- 6.** Save the graphics as a vector in .pdf, .eps or .ai file.
