

PLAIN, Saucepan

Classic enamel saucepan with a navy rim - great for fans of camp and home cooking. It'll be irreplaceable when cooking on a campfire or barbecue and is resistant to extreme weather conditions. You can use it also on gas or electric hobs. Enamel saucepan is produced from high quality and durable steel and is covered by a solid layer of enamel. It's precisely packed and boxed for a long journey.

Enamel is a hard material that can survive a lot. However, exposed to a big pressure, it will break (just like glass). Don't throw your enamelware.
